# Friend (for Dave)

Russell Lawson, Josh Jones

*G* Times the past paints in shades of blue  
*Em* close my eyes and I think of you  
*Em7* brighter visions, the colors blend  
*Am7* hours spent with a long lost friend  
*G* seems like time tries to close the door  
*Em* and a lost friend will be no more  
*Em7* still I long for the early days  
*Am7* dreams of fame and the songs we played

REF

*G* we all need a friend to care  
*Am* shine your light so I'll know you're there  
*Bm* tell me if you'll be back again  
*Am7* I want you to be my friend

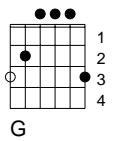

these last year's we've grown apart  
new fortunes now fill our hearts  
things we shared may no longer be  
still important to you and me  
I thought good friends always last  
don't leave themselves in the past  
still, it seems like I could be wrong  
so I write and I sing this song

REF

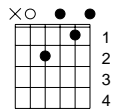

time's the victor and all thing pass  
deepest hurts all will heal at last

love hurts as you might expect  
 life deals from a crooked deck  
 I will never understand  
 why love's like this man to man  
 these phrases are all I find  
 let your friendship pass down the line
