

# Grandma and me

R. Lawson 5/16/03

CAPO 2 in D form, key of E

<sup>D</sup> I never dreamed that any child could ever be so small  
<sup>D</sup> I never dreamed that anything could make me feel so tall  
<sup>D</sup> Grandma and me will be right here any time you need a hand  
<sup>D</sup> 'cause this world is cold and hard to understand

<sup>G</sup> when you look back you'll see us there, proud of what you are  
<sup>E</sup> with a lot of love and a little help, we know you will go far

<sup>D</sup> and when you take that first big step, if we look sad, you'll know,  
<sup>D</sup> it will not be long before you go

<sup>D</sup> As you grow up, we hope you learn we'll always be your home  
<sup>D</sup> And let this be a place of rest no matter where you roam  
<sup>D</sup> We'll keep the garden gate unlocked, you'll have the back door key  
<sup>D</sup> Stop in and visit with Grandma and me

<sup>G</sup> So you look back, you'll see us there, proud of what you are  
<sup>E</sup> with a lot of love and a little help, we know you will go far

<sup>D</sup> so take your next big step and then you'll soon be on your way  
<sup>D</sup> we think about you every single day

(instrumental verse)

<sup>G</sup> So you look back, you'll see us there, proud of what you are

<sup>E</sup> with a lot of love and a little help we know you will go far

<sup>D</sup> so take your next big step and then you'll soon be on your way  
<sup>D</sup> we think about you every time we pray

<sup>D</sup> Many years from now you might remember with a smile  
<sup>D</sup> How me and Grandma favored you when you were just a child  
<sup>D</sup> You were the first, you hung the moon as far as we could see  
<sup>D</sup> A precious gift to your Grandma and me

<sup>G</sup> When you look up, you'll see us there, proud of what you are  
<sup>E</sup> With a lot of love and a little help, we saw you go so far

<sup>D</sup> And while we stroll those streets of gold with sky of brightest blue  
<sup>D</sup> Forever, in our hearts, we'll think of you
