Everything will be fine, it's gonna be OK

You'll be off on your own, doin' things your own way

No one setting the pace, telling you what to do

Life is all about change, time to try something new

Chorus

Some would say that you've been growing up too fast

I prefer to believe that all these lessons last

You've been looking awhile for your place,

Not just taking up space, finding your place in the world.

harmonic A-D-G

You had to run for your life, never could hang around

Never wanted to fight, never stood your own ground

But you stand tall today and you know what you feel

'cause it's deep in your blood and it's gotta be real

Chorus

Some would say that you've been growing up too fast

I prefer to believe that all these lessons last

You've been looking awhile for your place,

Not just taking up space, finding your place in the world.

harmonic A-D-G

If you're wondering why, if you're questioning how

All the answers you need are in your hands right now

Just a bit of advice, and you know that's it's true

G Am G
You can't count on much but you can count on you

Chorus

G D Am Em
Some would say that you've been growing up too fast

G D Am Em
I prefer to believe that all these lessons last

G D Am Em
You've been looking awhile for your place,

G D Am Em D
Not just taking up space, finding your place in the world.
